### WE DESIGN AND MANUFACTURE BEAUTIFUL AND SUPERIOR MOTORCYCLE HELMETS.

### The perfect duality

Nolan had been established in 1972 by Mr. Lander Nocchi, a pioneer, an entrepreneur, a man who represented Italian elegance and had a visionary outlook. Today we represent excellence in the helmet manufacturing industry, the perfect duality among Italian design and engineering.

### THE NOLAN COMPANY An Italian «in house» excellence

The Company is situated in Brembate di Sopra, Bergamo, with a breathtaking view of the Alps. Here is where Nolan handcraft its appreciated helmets.

**33.500 square meters** of spaces that embrace two specialized production lines, **carbon fiber and polycarbonate**, two internal Research & Development Departments, one Style Center and laboratories. Today, Nolan is the only European helmet manufacturer with an end-to end integrated fabrication process to guarantee total quality control of every detail at every step.

In our headquarter, over **350 passionate employees** every day manufacture beautiful and superior motorcycle helmets.

### One brand, NOLAN

We are proud of our past achievements, passionate about our present work, and excited about our future endeavors.

We embrace challenges as opportunities for growth, constantly seeking excellence while understanding that the journey is ongoing.

Today, we gladly introduce our **X SERIES signature** that defines the **Nolan fiber collection**.

Our X SERIES will redefine carbon fiber excellence in the new Nolan collection, encapsulating our commitment to **innovation**, **quality**, and a vision for the future.

### Pillars of Excellence: Uncompromising and different

#### **Cutting-edge Materials and the Highest Quality:**

We are committed to utilizing the most advanced materials and upholding the highest quality standards in every aspect of our helmet production. This ensures that our helmets provide exceptional comfort.

#### **Best Technology and Elegant Design:**

We believe that elegance and design are integral to a truly exceptional riding experience. We combine state-of-the-art technology with design to create helmets that not only perform at the highest level but also reflect and elevate the rider's sense of style.

#### Unprecedented Craftsmanship and Made in Italy:

Craftsmanship is at the heart of our manufacturing process. Each helmet is crafted with unparalleled attention to detail, drawing on the rich heritage of Italian craftsmanship. We take pride in representing the excellence of Made in Italy.

#### Safety and Innovation:

We continually strive to innovate and integrate advanced safety features into our helmets, ensuring that riders have the highest level of protection on their journeys.

#### Product Performance and Comfort:

We understand that riders seek both performance and comfort. Our helmets are designed to deliver exceptional performance while providing optimal comfort and customization opportunities, allowing riders to fully enjoy their experience on the road.

### NOLAN AMBASSADOR

"Since the beginning, we made an incredible roller coaster ride all the way to the top and it was fantastic to have you by my side".
