A GLOBAL LEADER

IN THE TWO-WHEELER INDUSTRY

OXFORD HEADQUARTERS

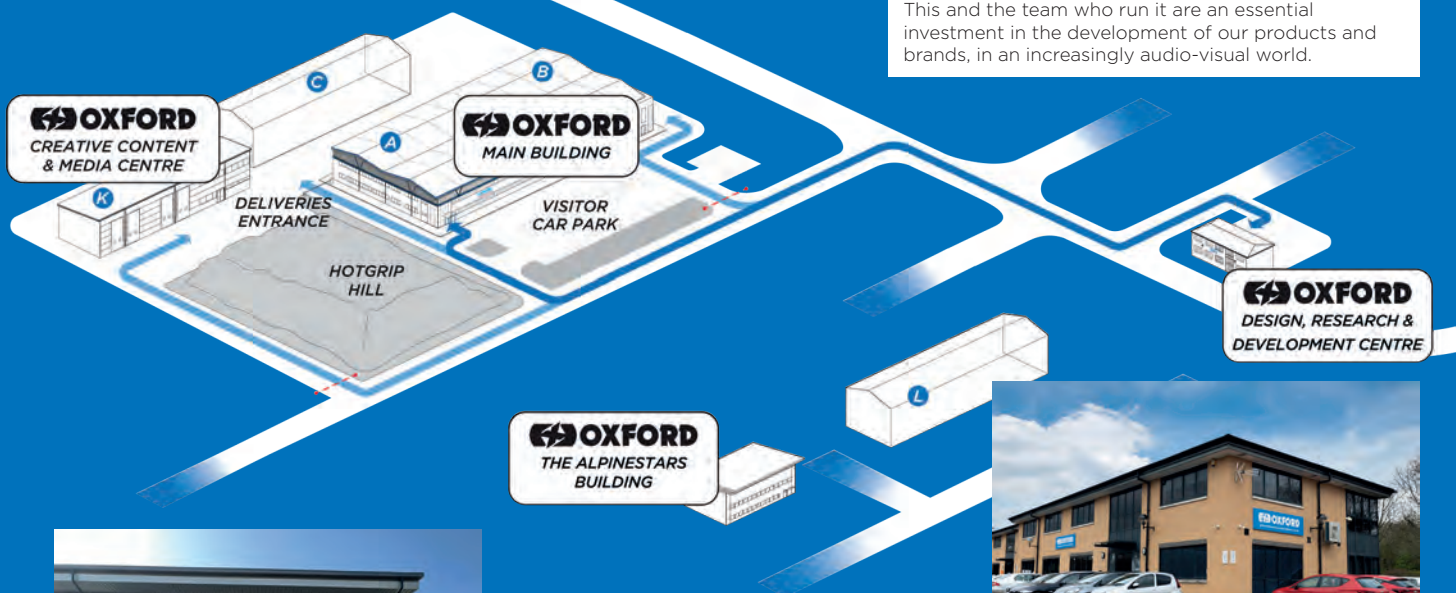

A bespoke facility opened by Prime Minister David Cameron in 2014 has recently been expanded with additional warehousing to 150,000 sq ft / 14,000 m².

CREATIVE CONTENT & MEDIA CENTRE

In 2021, this new facility opened, containing 2 large purpose-built photography & videography studios (fully equipped with the latest cameras, lighting and recording technologies) and an editing suite.

This and the team who run it are an essential investment in the development of our products and brands, in an increasingly audio-visual world.

PARTNER BRANDS BUILDING

Opened in 2023, this building houses a state-of-the-art showroom featuring a comprehensive range of products from this iconic brand, available on a next day basis from Oxford.

DESIGN, RESEARCH & DEVELOPMENT CENTRE

Opened in 2022, this is where Oxford's vast range of products is designed, tested and developed before being put to market.

A state-of-the-art laboratory allows all products to be tested on-site. 3D Printing capability allows rapid CAD design and prototyping to enhance product development.

WHERE IT ALL STARTED

Established in 1973, OXFORD is now one of the world's leading suppliers of products in the two-wheeler industry. From its base in Oxfordshire, the company distributes to around 100 partners worldwide and around 2,000 domestically.

Its huge range of products encompasses everything which makes life on bikes better: from clothing and helmets to accessories, hard parts, locks, luggage and more! Following unprecedented investment in staff, product development and infrastructure, the company now employs around 160 people.

Having established an impressive growth curve, which has seen turnover doubling every 5 years, the company has further ambitious expansion plans both at home and abroad.

COMMITTED TO DEVELOPMENT

OXFORD products are designed in-house by a combined team of active enthusiasts and skilled technicians. They use the latest CAD technology and 3D printing techniques to innovate, analyse, test and develop the range in pursuit of the best product experience for their customers.

In addition to OXFORD branded products, the company uses its expertise to design and produce for many other labels around the world. Like many of its products, which have wider appeal in other leisure and outdoor-based markets, this activity is not restricted to the two-wheeled industry.

Making life on bikes better since 1973.

CONTACT

OXFORD UK

Oxford Essential Rider Equipment is distributed in the UK by a network of retail partners.

01993 862 300
info@oxprod.com
www.oxfordproducts.com

Online store (trade-only): Retail partners can view stock availability, prices and place orders online via a secure log-in. Please contact trade@oxprod.com for more information.

AROUND THE WORLD

OXFORD is a remarkable British success story! For five decades the company has waved the flag for British ingenuity and innovation and is proud to have distribution partners in all corners of the globe.

In return, foreign markets have provided many fresh ideas to OXFORD's product range; the challenges of widely varying climates, customs and terrain have only served to enrich the company's offering.

You will find a full distributor list at

www.oxfordproducts.com. Please contact us for further information:

DESIGN DEVELOPMENT PROCESS

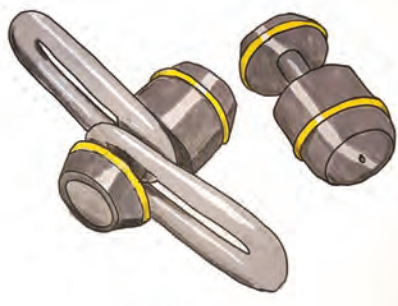

At its heart, Oxford is a products company – Oxford Products! The team develops its products in-house, increasingly through the use of Computer Aided Design. In order to maximise the benefits of CAD, the company has invested in the latest 3D print technology.

This means that a product or component designed today can be printed off overnight and tested tomorrow. The day after, our factory can be making the moulds and production can begin shortly after. In this way, product development time is dramatically reduced and the end result far more relevant and ambitious. Here is a typical design cycle for an Oxford product...

PRODUCT TESTING

FINISHED PRODUCT

PRODUCT TESTING

Our products are rigorously tested for both real-world usability and relevant product standards in our test laboratory. Having this facility in-house enables us to develop products which are measurably better, faster. Some of our key testing equipment is outlined here.

ACCELERATED WEATHER TESTER

The machine reproduces damage caused by sunlight, rain and dew. In a few days/weeks, the QUV UV tester can reproduce the damage that normally occurs over months or years outdoors. This allows us to select materials and finishes which will offer impressive longevity.

KEYSIGHT DIGITAL MULTIMETER

We have 2 industry-standard bench multimeters for electronic component design, programming and testing along with 2 portable multimeters for testing on the road.

In addition, we use a multi-channel thermocouple and a thermal imaging FLIR camera to measure and record the heat distribution and pattern. This is critical equipment in the design and continuous development of the HotGrip and battery management ranges.

FUSE 1+ 30W SLS PRINTER

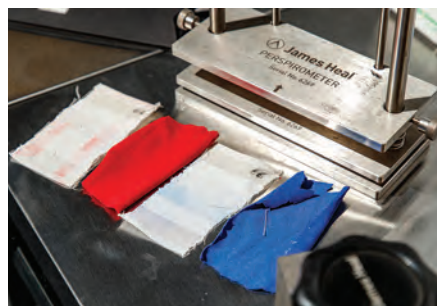

Our Fuse 1+ printer produces high precision prototypes within 24 hours with a powerful 30W laser that prints at scan speeds of up to 12.5 meters per second.

FORM WASH & FORM CURE

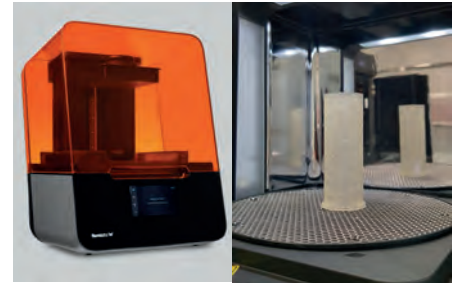

Using the Form Wash, we remove residual resin from 3D printed parts. The Form Cure then exposes the part to multi-directional LEDs, curing and maximising the strength and performance of 3D printed prototypes.

PERSPIROMETER

We use our Perspirometer and Incubator to test for colour fastness and phenolic yellowing.

FORM 3+ 3D PRINTER

Our Form 3+ printer produces functional, high-quality resin prototypes and end-use parts in short time frames.

FUSE SIFT

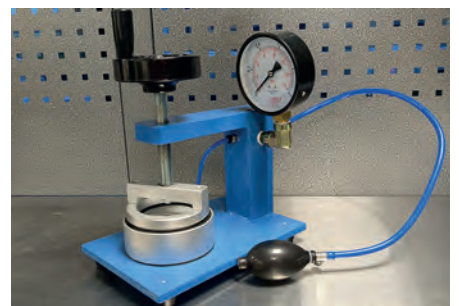

A powder recovery system for the Fuse 1+, allows for the recycling of leftover particles from printed prototypes, and re-use in future prints.

5,000KG TENSILE TESTING SYSTEM

Our Tensile Testing System allows us to test our samples with up to 5,000kg of controlled tension until the product fails. We can observe not only when failure occurs, but how it occurs and engineer the final product accordingly.

HYDROSTATIC HEAD TESTER

Using the Hydrostatic Head Tester, we are able to determine the resistance to water penetration under pressure.

SECURITY

Motorcycles are fundamentally more vulnerable to theft than most other forms of transport, but they need not be. The use of a good lock will protect a motorcycle against most forms of attack and reduce the theft rate dramatically. Incredibly, motorcycle security experts still believe that well over half of all motorcyclists use no form of physical security other than the steering lock, which itself offers very little resistance to a determined attack.

Furthermore, just like an alarm or an immobiliser, the steering lock does not prevent thieves from simply lifting the motorcycle into the back of a van and transporting it to a garage where they can re-mobilise the bike at their leisure.

These figures are supported by recent research carried out by Oxford Products Ltd in the UK's capital London, the UK's worst theft hotspot. A survey of 736 bikes revealed just 287 using locks, meaning that 61% of bikes were unsecured! If you want to keep your bike, the best advice is simple: Lock it up!

THE FACTS ABOUT THEFT

Motorcycle theft remains a huge problem, both in the UK and abroad. Every year thousands of motorcycles are stolen and motorcyclists are disappointed and inconvenienced as a result.

- It takes approximately 12 seconds to steal an unprotected motorcycle.
- Approximately 70 motorcycles are stolen every day in the UK and less than 14% of stolen motorcycles are recovered.
- Theft accounts for one third of insurance claims and 40% of owners who have their bike pinched give up on bikes.

UNBELIEVABLY...

- More than half of all motorcyclists neglect to use ANY form of motorcycle security!

According to police statistics, 50% of bikes are stolen by the opportunist or "Joy-rider". Incredibly, they also estimate that 60% of riders do not lock their machines. Reduce the risk of theft by following these simple steps:

- Buy the best lock you can afford and always use it.
- Alarms can be very effective but only really effective when in conjunction with a lock.
- If you have a garage, always use it and remember to lock the bike and set the alarm - otherwise cover your bike when outside.
- When parking your bike try to avoid using the same spot every day and lock your bike to a secure immovable object, such as a ground anchor.
- Never leave your lock resting on the ground and always lock it as tight to your bike as possible - this makes it much more difficult to attack.
- Remember to maintain your lock. Keep it free from dirt and oil moving parts regularly. If your lock stops working, you won't be able to use it!

INDEPENDENTLY TESTED

SOLD SECURE

Sold Secure is the premier testing and certification house for security products in the UK. It is owned by the Master Locksmiths Association, the largest and longest established trade association for the locksmithing industry. It is the mission of Sold Secure to test and provide professional and accurate advice regarding effective security products to Commercial Customers, the Insurance Industry, the Home Office, the Police and the Public.

www.soldsecure.com

POWERED CYCLE DIAMOND

5 minutes, much higher tool list including angle grinders, largest bolt croppers, machine-based crop test to ensure at least 7 tonnes of force is achieved, drill with HSS bits, etc.

POWERED CYCLE GOLD

Aimed at preventing more dedicated attacks; 5 minutes; higher tool list inc. TCT hacksaw, larger croppers, larger crowbars, lump hammer, etc.

POWERED CYCLE SILVER

Aimed at preventing more determined attacks; 3 minutes; enhanced tool list including small bolt croppers, full size hacksaw (HSS), stillsons, crowbar, etc.

PEDAL CYCLE BRONZE

Aimed at preventing opportunist theft; 1 minute attack time; basic tools that can be easily concealed about the person, i.e. screwdriver, small hammer, junior hacksaw, etc.

SECURED BY DESIGN

The official police security initiative that works to improve security. SBD's product-based accreditation scheme – the Police Preferred Specification – provides a recognised standard for all security products that can deter and reduce crime. SBD is the only way for companies to obtain police recognition for security-related products in the UK.

OTHER INTERNATIONAL APPROVALS

Oxford offers a range of security products which have been tested and approved to various international security standards.

CHAIN LOCKS

BEAST

Maximum security chain lock

Some say that size doesn't matter. When it comes to locks, it matters! The Oxford BEAST is our strongest and largest ever lock, it's so big it comes with a health warning on the box: WARNING - HEAVY! The lock alone weighs 3.6KG, the chain up to 15.5KG!

PADLOCK FEATURES

- 30mm hardened locking pin
- Designed to resist angle-grinder attack
- Surface hardened throughout
- 3.6kg weight

CHAIN FEATURES

- Durable 22mmØ painted links
- Designed to resist angle-grinder attack
- 12 - 15.5kg weight

LK127	Beast Chain- 1.94m
LK120	Beast Lock

**DIAMOND
RATED**

NEMESIS

16mm round link chain
& 16mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel, reinforced with titanium alloy
- Available in 1.2m, 1.5m & 2.0m lengths
- Shock resistant padlock with rubber over-moulding
- Anti-pick and anti-drill lock cylinder

CODE DESCRIPTION

LK472	Nemesis - 1.2m
LK473	Nemesis - 1.5m
LK474	Nemesis - 2.0m
LK470B	Nemesis - Padlock Black unpackaged

CHAIN LOCKS

BOSS ALARM

12mm square link chain
& 16mm or 14mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Anti-jack design padlock can withstand 4.5 tonnes of tensile load
- 6 x LR44 batteries included
- Removable, sealed unit alarm module

CODE	DESCRIPTION
LK480	Boss Alarm 16 Black - 1.2m
LK481	Boss Alarm 16 Black - 1.5m
LK482	Boss Alarm 16 Black - 2.0m
LK484U	Boss Alarm 16 Black - Padlock Unpackaged
LK487	Boss Alarm 14 Yellow - 1.2m
LK488	Boss Alarm 14 Yellow - 1.5m
LK489	Boss Alarm 14 Yellow - 2.0m
OF3U	Boss Alarm 14 Yellow - Padlock Unpackaged

MONSTER

14mm hex link chain
& 11mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Ultra-strong padlock made from hardened boron steel armour casing
- Double locking mechanism

Also available

MONSTER XL

14mm hex link chain
& 16mm shackle
padlock

CODE	DESCRIPTION

OF20	Monster XL - 1.5m
OF21	Monster XL - 2.0m
OF22	Monster XL - Padlock Black

BOSS

12mm square link chain
& 12.7mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Anti-pick & anti-drill lock cylinder
- Double locking mechanism

CODE	DESCRIPTION
LK382	Boss - 1.2m
LK383	Boss - 1.5m
LK384	Boss - 2.0m
LK380B	Boss - Padlock Black Unpackaged

HARDCORE XC13

13mm square link chain
& 11mm shackle padlock

FEATURES

- Chain made from hardened Ni-Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m lengths
- Ultra-strong padlock made from hardened boron steel armour casing
- Shock resistant rubber over-moulding

CODE	DESCRIPTION
LK170	Hardcore XC13 - 1.2m
LK171	Hardcore XC13 - 1.5m
LK172	Hardcore XC13 - 2.0m
LK173	Hardcore XC13 - 3.0m
LK169	Hardcore XC13 - Padlock Black Unpackaged

CHAIN LOCKS

HD CHAIN

10mm square link chain
& 14mm shackle padlock

FEATURES

- Chain made from Cro-Mo steel
- Available in 1.2m, 1.5m & 2.0m
- Double locking mechanism

CODE	DESCRIPTION
OF157	HD Chain - 1.0m
OF159	HD Chain - 1.5m
OF160	HD Chain - 2.0m
OF162	HD Chain - 3.0m

ALARM CHAIN 10

10mm square link chain
& integral alarmed lock

FEATURES

- Loud 90dB alarm siren
- Robust hardened steel construction
- Integral alarmed lock head
- Available in 1.2m, 1.5m & 2.0m lengths
- Protective chain cover
- Batteries included (8 x LR44 batteries)
- 3 keys included

CODE	DESCRIPTION
LK130	Alarm Chain 10 - 1.2m
LK131	Alarm Chain 10 - 1.5m
LK132	Alarm Chain 10 - 2.0m

GP CHAIN 10

10mm round link chain
& integral lock

FEATURES

- Made from hardened steel
- Available in 1.2m, 1.5m & 2.0m
- Integral lock head
- 360° rotating lock head
- Supplied with 4 keys

CODE DESCRIPTION

LK107	GP Chain 10 - 1.2m
LK108	GP Chain 10 - 1.5m
LK109	GP Chain 10 - 2.0m

GP CHAIN 8

8mm round link chain
& integral lock

FEATURES

- Made from hardened steel
- Available in 1.2m, 1.5m & 2.0m
- Integral lock head
- 360° rotating lock head
- Supplied with 4 keys
- Non scratch chain sleeve

CODE DESCRIPTION

LK104	GP Chain 8 - 1.2m
LK105	GP Chain 8 - 1.5m
LK106	GP Chain 8 - 2.0m

COMBI CHAIN 8

8mm square link chain
& integral combination lock

FEATURES

- 5 digit resettable combination
- 8mm square link chain
- Robust durable construction
- Protective chain cover
- Available in three lengths:
0.9m, 1.5m, 2.0m

CODE DESCRIPTION

LK117	Combi Chain 8 - 0.9m
LK118	Combi Chain 8 - 1.5m
LK119	Combi Chain 8 - 2.0m

CHAINS

BEAST

Maximum security
22mm link chain

FEATURES

- Oxford's strongest ever chain
- 22mm round links
- Angle grinder resistant
- 12 & 15.5kg weight
- Available in 1.5m & 1.94m lengths

CODE	DESCRIPTION
LK126	Beast - 1.5m
LK127	Beast - 1.94m

ROUND

Ultra strong
16mm link chain

FEATURES

- Ni-Cro-Mo hardened steel
- Long links reduce weight and increase portability
- Available in 1.2m, 1.5m & 2.0m lengths

CODE	DESCRIPTION
OFN12	Round Link - 1.2m
OFN15	Round Link - 1.5m
OFN20	Round Link - 2.0m

HEX

Ultra strong
14mm link chain

FEATURES

- Ni-Cro-Mo steel
- Can be easily stowed under seat
- Available in 1.2m, 1.5m & 2.0m lengths

CODE	DESCRIPTION
OFM12	Hex Link - 1.2m
OFM15	Hex Link - 1.5m
OFM2	Hex Link - 2.0m

SQUARE

High security
12mm link chain

FEATURES

- Ni-Cro-Mo steel
- Can be used with all Oxford ground anchors
- Available in 1.2m 1.5m & 2.0m lengths

CODE	DESCRIPTION
OFH1G	Square Link - 1.2m
OFH15G	Square Link - 1.5m
OFH2G	Square Link - 2.0m

ANCHORS

BEAST FLOOR LOCK

Maximum security integrated floor lock

The Beast Floor Lock - the all-in-one security solution - is an extra strong bolt-down anchor.

The Beast has achieved a Sold Secure DIAMOND rating, ensuring it is able to withstand forceful and sustained attacks. To be awarded a DIAMOND is no small feat. The Beast has passed attack tests from a huge range of tools, commonly used by thieves including, pliers, bolt croppers, drill, and most impressively a 90 second angle grinder attack.

The Beast Floor Lock has a key replacement service. When you buy your Beast Floor Lock, simply note down the number which comes attached to the keys on a metal tag. Keep this in a safe place, then in the event that you are unfortunate enough to lose all your keys, it will be possible to get a new key made up for you.

FEATURES

- 30mm hardened locking pin
- Designed to resist angle grinder, pliers, bolt croppers attack
- All fittings included

CODE	DESCRIPTION
LK115	Beast Floor Lock

ANCHORS

ROTAFORCE

High security rotating ground anchor

FEATURES

- 26mmø hardened ring
- Rotating head allows easier fitment and better bike positioning
- 59mm internal diameter
- All fittings included

Secured by Design

CODE	DESCRIPTION
------	-------------

LK400	Rotaforce
-------	-----------

BEAST ANCHOR

High security ground / wall anchor

FEATURES

- Hardened steel double layer construction
- Fits all oxford chains and locks
- 22mm Beast chain compatible
- All fittings included

DIAMOND
RATED

Secured by Design

CODE	DESCRIPTION
------	-------------

LK403	Beast Anchor
-------	--------------

STINGER

High security anchor & chain lock

FEATURES

- 10mm locking pin
- Cast stainless steel construction
- 1.2m length chain
- 10mm round link chain
- Anti-tamper fittings

CODE	DESCRIPTION
------	-------------

LK410	Stinger
-------	---------

ANCHORFORCE

High security ground / wall anchor

FEATURES

- Hardened steel double layer construction
- Fits up to 16mm chains
- Designed to resist angle grinder attacks
- All fittings included

CODE	DESCRIPTION

-------	-------------

ANCHORS

TERRAFORCE

High security case-hardened steel ground anchor

FEATURES

- 24mmø hardened ring
- Simple concrete-in design
- 59mm internal diameter
- All fittings included

CODE	DESCRIPTION
------	-------------

LK402	Terraforce
-------	------------

NEW GROUNDFORCE

Heavy duty ground & wall anchor

The flat heavy-duty anchor from Oxford is both stylish and modern with a stainless steel construction. It folds flat when not in use so vehicles can drive over it without it being a safety hazard. The Ground Force is corrosion resistant, making it a reliable choice of ground and wall anchor and it is supplied complete with anti-tamper fixings.

FEATURES

- Folding design
- Stainless steel construction
- Fits up to 14mm chains
- Attack tested
- Compact design
- Corrosion resistant
- Anti-tamper design
- 1.3kg

CODE	DESCRIPTION
------	-------------

LK411	Groundforce
-------	-------------

TASKFORCE

High security ground / wall anchor

FEATURES

- Fits up to 16mm chains
- Folds flat when not in use
- Hardened steel 14mm shackle
- Tough polymer housing
- All fittings included

CODE	DESCRIPTION
------	-------------

LK408	Task Force
-------	------------

BRUTEFORCE

High security ground / wall anchor

FEATURES

- Fits up to 14mm chains
- Can be used on floors or walls
- Bolts protected by ball bearings once fitted
- All fittings supplied

CODE	DESCRIPTION
------	-------------

LK397	Brute Force
-------	-------------

DISC LOCKS

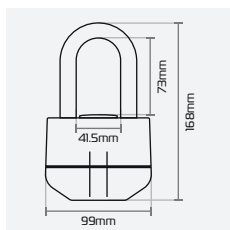

BOSS ALARM

Ultra strong alarm lock

FEATURES

- Choice of 14mm and 16mm hardened steel shackles
- Very loud 100dB alarm
- Anti-jack design can withstand 4.5 tonnes of tensile load
- Can be used with or without removable, sealed unit alarm module

CODE DESCRIPTION

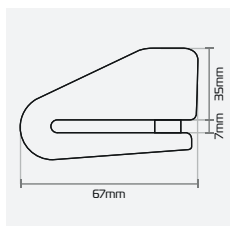

OF3	Boss Alarm 14mm - Yellow
LK484	Boss Alarm 16mm - Black

ALPHA XA14

Super strong alarm disc lock

FEATURES

- 14mm hardened locking pin
- Very loud 110dB alarm
- Forged stainless steel construction
- Rechargeable lithium polymer battery (USB cable included)

CODE DESCRIPTION

LK217	Alpha XA14 - Yellow
LK218	Alpha XA14 - Black

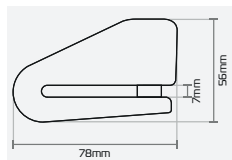

ALARM DISC LOCKS

QUARTZ XA10 + XA6

High security alarm disc locks

FEATURES

- 10mm or 6mm hardened locking pin
- Very loud 110dB alarm
- Twin spar lock chassis for double strength and cut resistance
- Rechargeable lithium polymer battery (USB cable included)
- Push to lock

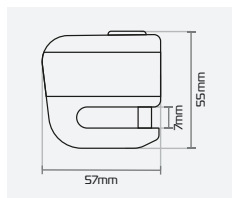

MICRO XA5

High security alarm disc lock

FEATURES

- 5mm hardened locking pin
- Very loud 110dB alarm
- Universal fitment for all scooters
- Rechargeable lithium polymer battery (USB cable included)
- Minder cable included
- Push to lock

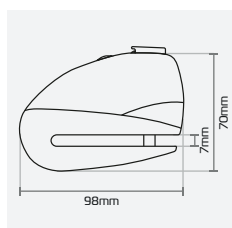

SCREAMER 7

Attack activated alarm disc lock

FEATURES

- 7mm hardened locking pin
- Very loud 100dB alarm
- Motion and shock sensors
- Powered by a lithium CR2 long life battery

CODE DESCRIPTION

LK216	Quartz XA10 - 10mm
LK215	Quartz XA6 - 6mm

CODE DESCRIPTION

LK213	Micro XA5 - Yellow
LK214	Micro XA5 - Black

CODE DESCRIPTION

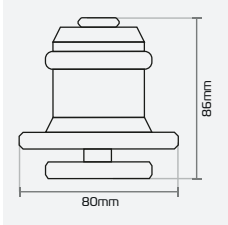

LK290	Screamer XA7 - Yellow
LK289	Screamer XA7 - Black

BEAST DISC LOCK

Maximum security disc lock

FEATURES

- 16mm hardened steel rotating locking pin
- Resists angle grinder attacks
- Anti-pick mechanism
- Fits up to 8mm disc
- Surface hardened throughout
- Keyway dust cover

CODE DESCRIPTION

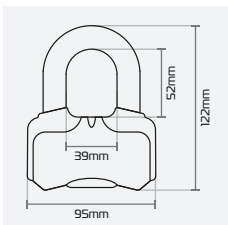

LK121 Beast Disc Lock

NEMESIS

Ultra strong disc lock

FEATURES

- 16mm hardened shackle
- Shock resistant rubber over-moulding
- Anti-pick and anti-drill lock cylinder
- Double locking mechanism

CODE DESCRIPTION

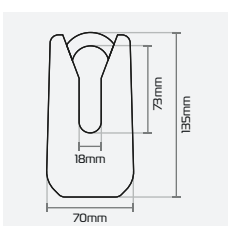

LK471 Nemesis

MONSTER

Ultra strong disc lock

FEATURES

- 11mm hardened & concealed shackle
- Widened access to fit even the largest discs
- Double locking mechanism
- Built-in lock cylinder dust cover

CODE DESCRIPTION

OF36M Monster

DISC LOCKS

PATRIOT

Ultra strong disc lock

FEATURES

- 14mm hardened rotating locking pin
- 4 way locking system
- By design the lock body is protected within brake discs
- Compact, so convenient to transport

CODE DESCRIPTION

OF40 Patriot

ALPHA XD14

Super strong disc lock

FEATURES

- 14mm hardened locking pin
- Double locking mechanism
- Forged stainless steel construction

CODE DESCRIPTION

LK275 Alpha XD14 - Black

LK276 Alpha XD14 - Yellow

BOSS

Super strong disc lock

FEATURES

- Hardened shackle
- Double locking mechanism
- Anti-pick & anti-drill lock cylinder
- Hardened steel armour casing

CODE DESCRIPTION

OF39 Boss - 12.7mm

OF46 Boss - 16mm

QUARTZ XD10 + XD6

High security disc lock

FEATURES

- 10mm or 6mm hardened locking pin
- Includes minder cable and attachment eye
- Twin spar lock chassis for double strength and cut resistance
- Compact - Convenient to carry on bike or in a bag
- Push to lock

CODE DESCRIPTION

LK209 Quartz XD10

LK207 Quartz XD6

MICRO XD5

High security disc lock

FEATURES

- 5mm hardened locking pin
- Twin spar lock chassis for double strength and cut resistance
- Compact – Convenient to carry on bike or bag
- Push to lock

CODE	DESCRIPTION
LK205	Micro XD5

TITAN

Tough & reliable disc lock

FEATURES

- 10mm hardened locking pin
- Simple push to lock feature
- Convenient carry pouch included
- Built in lock cylinder dust cover

CODE	DESCRIPTION
LK485	Titan - Black
LK486	Titan - Yellow

MINI T

Tough & reliable mini disc lock

FEATURES

- 5.5mm hardened locking pin
- Simple push to lock feature
- Built in lock cylinder dust cover
- Carry pouch included

CODE	DESCRIPTION
LK291	Mini T - Yellow
LK292	Mini T - Black

HD MAX

High security disc lock

FEATURES

- 14mm shackle
- Anti-pick & anti-drill lock cylinder
- Double locking mechanism

CODE	DESCRIPTION
LK311	HD Max - Yellow
LK310	HD Max - Black
LK312	HD Max - Orange

OTHER LOCKS

MAGNUM

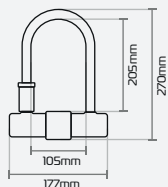

Ultra strong U-Lock

FEATURES

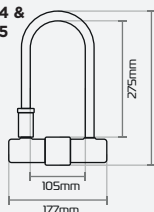

- 16mm hardened shackle
- Double locking mechanism
- 270mm & 340mm versions available
- LK225 comes with lockable cable

LK223

LK224 & LK225

CODE DESCRIPTION

LK223	Magnum - 270mm
LK224	Magnum - 340mm
LK225	Magnum - 340mm Duo

ALARM-D

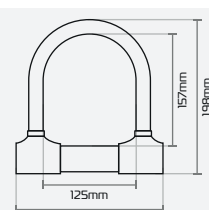

High security U-Lock with alarm

FEATURES

- 16mm hardened shackle
- Built-in 120dB alarm
- Shock-resistant rubber over-moulding
- Powered by long-life lithium CR2 battery (replaceable)

120dB

CODE DESCRIPTION

LK220	Alarm-D

SECURITY

BARRIER

Armoured cable lock

FEATURES

- 25mm x 1.4mm braided steel cable
- Protected by steel rollers
- Vinyl coating to protect paintwork
- Integrated lock cylinder dust cover

LOOP LOCK 15

Cable and mini shackle lock

FEATURES

- 12mm Shackle
- 15mm x 2.0m High tensile steel self-coiling cable
- Vinyl coating to protect paintwork
- Can also be used as a disc lock

CODE	DESCRIPTION
LK135	Barrier - Smoke
LK136	Barrier - Blue
LK137	Barrier - Red

LOOP LOCK 10

Hooped cable and padlock

FEATURES

- 7mm Shackle
- 10mm x 1.8m High tensile steel self-coiling cable
- Vinyl coating to protect paintwork
- Can also be used as a padlock

CODE	DESCRIPTION
LK221	Loop Lock 15

NEW BRAKE LOCK ALARM

Alarmed brake lever lock

FEATURES

- Loud 120dB alarm siren
- Hardened steel double-sided locking pin
- Waterproof IP67
- Triaxle shock & movement sensor
- Zamac alloy construction
- Stainless steel key barrel
- Alarm ON-OFF selection function
- Long life CR2 lithium battery
- Supplied with 3 security keys

CODE DESCRIPTION

LK304 Brake Lock Alarm

LEVERLOCK ALARM

Brake lever & throttle alarm lock

FEATURES

- Loud 120dB alarm siren
- Fits grips 28mm - 38mmø
- Waterproof IP67
- Highly visible security
- Push to lock
- Compact design
- 3 high security keys provided

CODE DESCRIPTION

STORMEX PRO

Dual-layered motorcycle cover

DUAL-LAYERED CONSTRUCTION

The Stormex Pro uniquely combines two covers in one to give the best of both worlds.

The outer is made from a tough, waterproof 600D polyester, which is double-stitched and internally bonded to provide durable protection from the elements and is impervious up to 10,000mm HH.

The tethered inner is made from our soft, Protex Stretch material which slides easily over the bike to provide a snug, dust-free fit whilst protecting against potential knocks and scratches.

The cover is packed with clever additional features to make protecting your motorcycle as easy as possible.

FEATURES

- Four large vents have built-in struts which hold them open to ensure maximum breathability
- Chain locks can be employed at both ends, thanks to reinforced eyelets and pockets to keep padlocks off the ground
- Front and rear belly straps hold the cover securely in place
- Reflective details provide 360-degree visibility
- UV resistant materials prevent degradation in sunlight
- Waterproof, PU coated 600D outer, double-stitched and internally taped seams
- Soft and stretchy, Protex Stretch protective lining, uniquely tethered to outer
- Complete with fabric storage bag for when not in use

AQUATEX RANGE OVERVIEW

Essential outdoor motorcycle cover

FEATURES FOR ALL AQUATEX COVERS

The Oxford Aquatex is THE essential motorcycle/scooter cover. As you would expect from the world's best-selling motorcycle cover it comes packed with useful features and is built to last.

Designed for both outdoor and indoor use, it offers protection against rain and dust. Police initiatives have also shown that bike covers can be a useful theft deterrent. This is especially true if you securely the belly strap in place and use the cover in conjunction with a chain lock, threaded through the lock holes provided, securing both motorcycle and cover in place at the same time.

The UK's most respected motorcycle consumer title Ride Magazine rated the Aquatex BEST BUY in their market review. They praised the combination of weatherproofing, quality construction, useful additional features and incredible value.

- Double-stitched polyester for strength and durability
- Complete exterior and interior protection - can be used both as an outdoor rain cover and an indoor dust cover
- An elasticated base with a belly strap creates a snug, secure fit
- Comes with a zipped carrier, to store away compactly when not in use
- Strong but lightweight material is UV resistant, so does not degrade in sunlight
- Double PU coating for optimal waterproofing
- Available in 6 sizes including MP3 and high-screen bikes

"Stocked widely by motorcycle dealers all across the country, this is a lightweight, low-priced and highly effective cover that's easy-to put on and take off."

BATTERY CARE

OXIMISER PRO

ADVANCED BATTERY
MANAGEMENT SYSTEM

**INTELLIGENT
CHARGING**

advanced
RIDER SERIES

Oxford has been designing market-leading OXIMISER battery optimisers for over 20 years.

Having launched our first battery optimiser over two decades ago, we understand the importance of 'user-centric' design, our new Oximiser Pro range has been engineered to take 'intelligent' battery optimisers to another level.

Equipped with sophisticated diagnostic capabilities, the Oximiser Pro seamlessly detects and rehabilitates damaged batteries, utilising cutting-edge, proprietary charging profiles to restore multiple battery types.

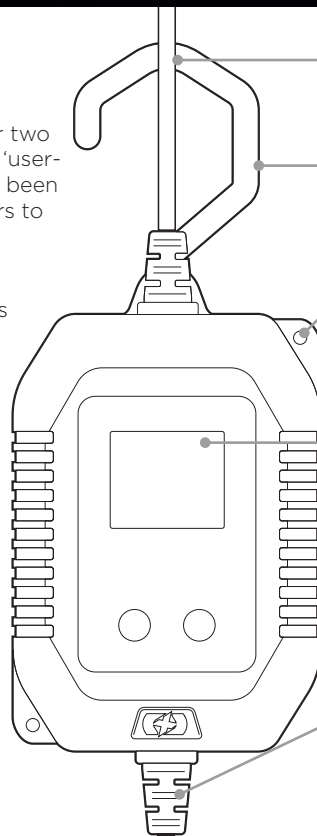

Requiring no prior technical expertise, this advanced system has been designed to ensure optimal performance for any battery type, with plug-and-play automated functions.

Its intelligent monitoring system continuously verses the battery's condition, providing long-term maintenance and significantly extending the battery lifespan.

WEATHERPROOF IP65

Weatherproof body, IP65 Rated allowing the Oximiser Pro to be used in any environment.

WINTER GRADE CABLE

Can withstand temperatures down to -20°C

REMOVABLE HANGER

Easy to use, clip in and turn to hold the hanger in place. Allowing the charger to be lifted off the ground.

MOUNTING POINTS

Allows the charger to be wall mounted to keep the Oximiser off the ground during charging. 2 x 4.5mm Diameter holes.

LCD DISPLAY

The Oximiser uses an LCD Display to clearly display the easy-to-read relevant charge data in any light condition whilst remaining low in power consumption.

RUBBER FEET

Rear fitted rubber feet for increased ventilation around the Oximiser casing.

WATERPROOF CABLE EXIT WITH CABLE STRAIN RELIEF

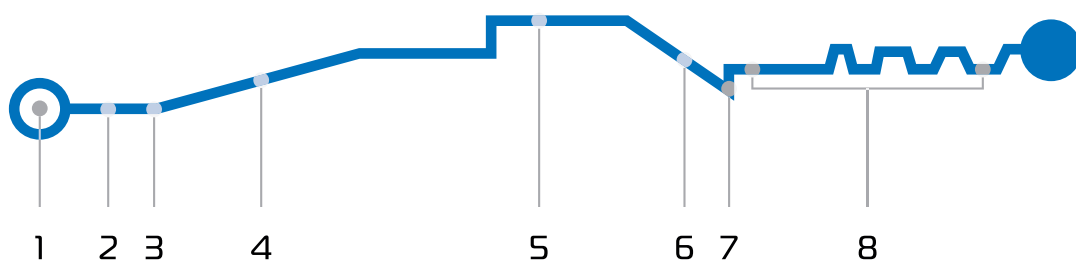

**HIGH IMPACT, FIRE
RESISTANT ABS CASING**

BATTERY CARE

8 STAGE AUTOMATIC CHARGING

1. POLARITY TEST:

Upon connection to the battery a polarity check is made to ensure that the polarity is correct. The digital (LCD) display will show a flashing battery warning sign if the connection polarity is incorrect.

2. ANALYSE:

The Oximiser will analyse the initial voltage to determine what charge rate should be applied to ensure a safe/efficient charge.

3. DESULFATION:

Repairs damaged batteries automatically during the charging profile, bringing them back to life (Not LiFePO4). **(1250, 2000, 5000 MODELS ONLY)**

4. SOFT START MODE:

To reduce shock to the battery the Oximiser will start by applying a low current, this is used to protect the battery and optimise the bulk charging.

5. BULK MODE:

Once safe to do so, the Oximiser will then supply a constant current of 5.0 Amps until the battery is 80-90% recharged.

6. ABSORPTION MODE:

The charge current will start to drop off when the charge program is nearing 80-90% complete, the charging Amps will continue to drop until the voltage of the battery has reached the desired completion voltage.

7. VOLTAGE CHECK:

After the charging program has been completed, the Oximiser will cut charge and observe the battery to ensure the voltage of the battery is stable.

8. MAINTAIN MODE:

This will be shown by a solid 100% charged diagram, the Amps will then drop to maintain a set float voltage.

* Desulfation not available on Oximiser Pro 900

OXIMISER PRO 5000

5.0A ⚡ 12V

FOR USE WITH:

FEATURE

- Designed to charge: 12V WET/MF, AGM, GEL and LifePO4 Batteries
- AH Capacity 20Ah - 120Ah
- Max output 5000mA
- IP65 Rated - Indoor & outdoor use
- Starts batteries as low as 4V
- 8 stage automatic battery management system

OXIMISER PRO 2000

2.0A ⚡ 12V

FOR USE WITH:

FEATURE

- Designed to charge: 12V WET/MF, AGM, GEL and LifePO4 Batteries
- AH Capacity 8Ah - 80Ah.
- Max output 2000mA
- IP65 Rated - Indoor & outdoor use.
- Starts batteries as low as 4V.
- 8 stage automatic battery management system

OXIMISER PRO 1250

1.3A ⚡ 6/12V

FOR USE WITH:

FEATURE

- Designed to charge: 6V & 12V WET/MF, AGM, GEL and 12V LifePO4 Batteries
- AH Capacity 3.5Ah - 40Ah.
- Max output 1300mA
- IP65 Rated - Indoor & outdoor use
- Starts batteries as low as 4V.
- 8 stage automatic battery management system

OXIMISER PRO 900

0.8A ⚡ 6/12V

FOR USE WITH:

FEATURE

- Designed to charge: 6V & 12V WET/MF Batteries
- AH Capacity 3.5Ah - 20Ah.
- Max output 800mA
- IP65 Rated - Indoor & outdoor use
- Starts batteries as low as 4V.
- 7 stage automatic battery management system

BATTERY CARE

OXIMISERS

THE IDIOT'S GUIDE TO THE OXFORD OXIMISER 3X AND OXIMISER 900

Attach to your battery and it will charge until the battery has reached full capacity and thereafter ensure that it is kept in tip-top condition. If the battery is deeply discharged it will recover it with a varying charge rate and then it never drops below the critical voltage level of 12.6V. The digital displays and battery level indicators keep you informed every step of the way. They are suitable for use on a variety of vehicle batteries - see guidance below.

NOTE: If a battery is left discharged for even a short period of time and remains under 11.9V, permanent damage will occur and even the smartest battery charging methods are unlikely to recover the battery to a useable condition.

BATTERY CHARGER KEY

Polarity Check

Checks the battery leads have been connected correctly

Bulk Fast Charge

Charges at a fast rate to bring the battery to approximately 85% capacity

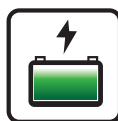

Battery Condition

LED lights indicate a weak or strong battery

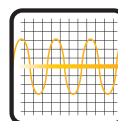

Battery Analysis

Assesses battery & determines best charging method

Absorption Charge

Lowers the charge rate & gives a topping charge to ensure the battery is charged to 100%

Float Charge

Applies a small float charge current to ensure the battery voltage and condition remain optimised

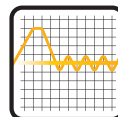

Soft Start Charge

Controlled build up of charge current ensuring discharged batteries are charged safely

Voltage Check

Hourly voltage checks assess battery health

Maintain Mode

Applies an appropriate charge if voltage drops outside acceptable limits to ensure the battery voltage and condition remains perfect

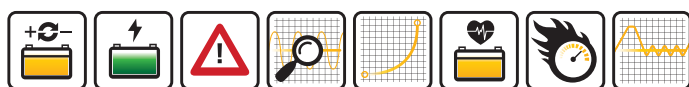

OXIMISER 3X

Advanced battery management system

FEATURES

- Designed and tested in the UK using top quality long-life components
- A 'soft-start' charging mode to improve recovery of deeply discharged batteries as low as 8 volts
- Intelligent charging will 'cycle-charge' in an attempt to recover sulphated batteries
- Suitable for all 12V automotive batteries including LITHIUM lifePO4 motorcycle batteries
- Suitable for use with various battery types up to 125AH capacity: Lead acid, Gel, AGM, Lithium
- 3 selectable charge power modes: Bike, Bike/Car, Winter
- Voltage sensors quickly detect high current drain and will automatically revert to the most appropriate charge rate
- Soft touch rubberised case for improved grip and ruggedness
- A 2 year warranty is included as standard

8 STAGE BATTERY MANAGEMENT CHARGE PROGRAMS:

BATTERY CARE

SOLARISER

Essential solar battery optimiser

The Solariser is a solar battery charger for maintaining 12Volt Automotive batteries all year round. Amorphous solar technology can produce output in most lighting conditions. There is no need for direct sunlight as the charger will operate using just daylight. It is ideal for vehicles left outside or in remote lock-ups where the Solariser can be left outside or attached to a window or garage roof, perfect for where there is no mains power source.

FEATURES

- 1.8 Watt Solar battery charger for maintaining 12V automotive batteries all year round
- Perfect for where there is no mains power source
- Ideal for vehicles left outside or in remote lock-ups where the Solariser can be left outside or attached to a window or garage roof
- LED light shows battery will charge with available light
- Operates in extreme temperatures -20°C to 100°C
- Trickle-charge current between 10mA - 100mA
- Weatherproof connectors
- Size (approx): 250 x 180 x 12 mm

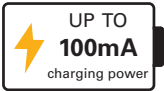

INCLUDES

- Cigarette lighter charger
- Battery charger
- mm ring leads

SUITABLE FOR USE WITH
VARIOUS BATTERY TYPES UP TO
30AH CAPACITY:

WORKSHOP

ZERO-G Paddock STANDS

We have been producing the industry's best paddock stands for well over a decade now.

Independent product tests - be it MCN 5-star reviews or RIDE 'BEST BUY' triangles - always yield top marks for stability, ease of use and quality of construction.

More importantly, we enjoy thousands of positive customer views posted on-line, which we scan for ideas on how we might improve our products.

ZERO-G LITE

Lightweight aluminium paddock stands

FEATURES

- Square tubing to prevent rotation
- Angled handle for more leverage and a controlled lift
- Included: Front stand forks (front OX291), Bobbin forks (rear OX290)
- Fork lock-off screws for secure fitment
- Robot welded for high build quality and consistency

FEATURES

- Durable steel construction
- Heavy duty fasteners for maximum rigidity
- Torsional supports for increased stability
- Double wheels for smooth lift and maximum stability under load
- Heavy duty fasteners
- Double wheels for maximum stability
- Max load: 300kg
- Stand weight: 4.9kg
- Lift height: 315mm (pin centre)

CODE	DESCRIPTION
SP822	Front Paddock Stand
SP821	Rear Paddock Stand

BOBBINS & FRAME FORKS

Paddock stand accessories

FEATURES

- Makes fitting a rear paddock stand to your bike much easier and quicker
- Does not mark the bike's swingarm
- The majority of bikes have pre-threaded holes in their swingarms to fit bobbins (consult your bike manufacturer for the bolt and thread size required for your bike)
- Some bikes have uneven swingarms, making the use of bobbins the only way to safely fit a rear paddock stand

CODE	DESCRIPTION
OX785	Bobbins M12 (1.25 thread)
OX786	Bobbins M10 (1.5 thread)
OX787	Bobbins M10 (1.25 fine)
OX788	Bobbins M8 (1.25 thread)
OX789	Bobbins M8 (1.25 thread) with integrated spacer
OX790	Bobbins M8 (1.0 thread)
OX791	Bobbins M6 (1.0 thread)
OX784	Fork Supports

NOTE: Frame Forks must be fitted to the rear paddock stand before bobbins can be used.

SPINNERS

Rotating paddock stand accessories

Bobbins make fitting a rear paddock stand to your bike much easier and quicker. Does not mark a bike's swingarm. The majority of bikes have pre-threaded holes in their swingarms to fit bobbins (consult your bike manufacturer for the bolt and thread size required for your bike). Some bikes have uneven swingarms, making the use of bobbins the only way to safely fit the rear paddock stand.

FEATURES

- Lightweight anodised alloy bobbin with bearing
- Stainless steel bearing provides a smooth transition making Spinners the easiest / safest way to use a paddock stand
- Quick simple installation onto the frame / swing arm

BIKE DOCK

High security front wheel dock

The Bike Dock secures the front wheel of a motorcycle to keep it upright when being stored or being transported.

FEATURES

- Multi-position pivoting head to provide the best support for the front wheel
- Hoop to attach optional lock (sold separately)
- Dock can be used free standing, screwed to the floor or to trailer
- Slot for attaching additional wheel support strap (not included)
- Heavy duty rubber feet
- Robust steel construction
- Fully adjustable cradle to fit most motorcycles with 12"-22" front wheel

CODE
OX288

SNAPJACK V3

Portable motorcycle jack

Oxford's Snapjack V3 is a very compact alternative to traditional rear paddock stands, which can be cumbersome to transport and store.

If you live in an apartment block or want to maintain your chain while away touring, this pocket-sized option could be your answer.

This latest version offers improved stability when loaded and additional user-friendly features.

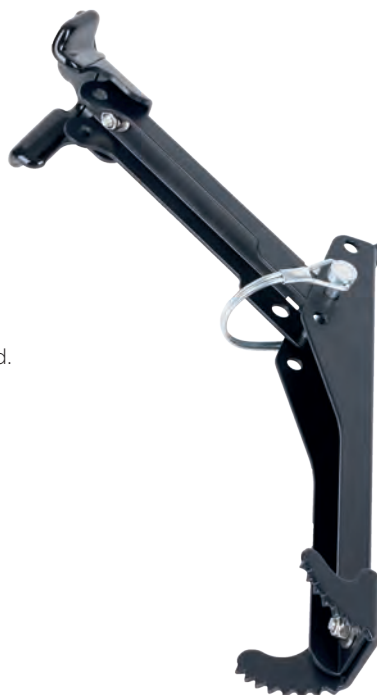

These include an anti-pinch tab to prevent hands getting caught when lifting the bike and a pull loop on the hinge pin to aid removal when lowering the stand.

FEATURE

- Safe & easy to use
- Lifts rear wheel
- Lightweight
- Compact
- Portable

INCLUDES

- Snapjack
- Locking pin
- Hinge pin
- Anti-skid pad
- Carry pouch
- Front brake locking strap

CODE
OX298

BEST IN SHOW

CLEANING AND CARE PRODUCT RANGE

A carefully formulated range of specialist cleaning and care products to make your pride and joy 'best in show'.

OXFORD

CHAIN CLEANER

A powerful formulation which is extremely effective at dissolving and washing away contaminated chain lube and the build-up of oil and dirt on your chain.

FEATURES & BENEFITS

- Easy to use
- Regular cleaning of your chain will extend the life of your chain and maintain performance
- High pressure delivery ensures dirt and grime is removed quickly

OC200 Chain cleaner 500ml

OC220 Workshop chain cleaner 750ml

GREAT FOR

- Chains
- Sprockets
- O,X,Z rings

BIKE DEGREASER

A robust formulation which is effective at dissolving and washing away grease and oily residues that have built up over time.

FEATURES & BENEFITS

- Reduces wear and overall deterioration
- Removes built up oil and grease
- Helps moving parts to move freely
- Deep penetrating action

OC201 Bike degreaser 500ml

OC221 Workshop bike degreaser 750ml

GREAT FOR

- Engine blocks
- Rear pegs
- Stands

BRAKE CLEANER

A special formulation which efficiently removes any build up of brake dust and dirt and leaves a decontaminated surface for the perfect functioning of your brakes. It's also acetone-free and safe on rubber components.

FEATURES & BENEFITS

- Maintains brake performance
- Easy to use, high power delivery
- Rapid working formula leaves brakes clean in minutes
- Deep penetrating action
- Fast drying leaving a residue-free surface

OC202 Brake cleaner 500ml

OC222 Workshop brake cleaner 750ml

GREAT FOR

- Disc brakes
- Brake calipers
- Clutches

FOAMING CHAIN CLEANER

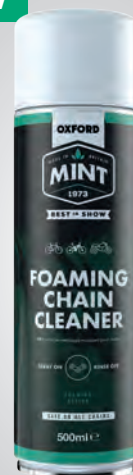

Creates a rich, clinging foam that lifts away dirt and debris. Specifically formulated to penetrate deep into the chain links to remove stubborn dirt, grime and oil deposits, helping your bike chain to run smoothly and last longer.

FEATURES & BENEFITS

- Foaming action lifts dirt off the chain for easier cleaning
- Provides a clean chain ready to be used in conjunction with Mint chain lubes
- Effective on vertical surfaces
- Safe to use on chains, swing arms, O, X and Z rings
- Regular cleaning of your chain will extend the life of your chain and maintain performance

OC213 Foaming chain cleaner 500ml

NEW

GREAT FOR

- Chains
- Sprockets
- O,X,Z rings

WATERLESS WASH

Mint Waterless Wash has been developed for quick and easy cleaning, without the use of water. Ideal for when you're on the go, cleaning indoors or just doing a bit of spot-cleaning.

FEATURES & BENEFITS

- Easy-to-use spray and wipe formula
- Suitable for all types of bodywork, painted & plastic parts
- Perfect for indoor cleaning
- Quick-drying
- Leaves a water-beading, glossy finish

OC109 Waterless wash 500ml

GREAT FOR

- Indoor cleaning
- All types of bodywork

WATERLESS CLEAN & SHINE

Mint Waterless Clean & Shine has been developed for quick and easy cleaning, without the use of water. Its foaming action lifts away dirt before leaving a deep, polished shine, making it the perfect all-in-one cleaner.

FEATURES & BENEFITS

- Easy-to-use foaming waterless wash & polish formula
- Suitable for all types of bodywork, painted & plastic parts
- Perfect for indoor cleaning
- Covers up to 9.5m² per can

OC209 Waterless clean and shine 500ml

GREAT FOR

- Indoor cleaning
- All types of bodywork

GLUE & SEALANT REMOVER

This fast acting, non-aggressive formulation is perfect for removing rim tape glue, sealant, or glue residue from your bike. It ensures fast, safe, and thorough cleaning and leaves no streaks behind.

FEATURES & BENEFITS

- Suitable on painted surfaces, rubber, and plastics
- Ideal for removing stubborn rim tape glue and sealant residue
- Perfect for removing sticker adhesive
- Fast-acting formulation

OC210 Glue & sealant remover 200ml

GREAT FOR

- Rim tape
- Sealant residue

INSECT REMOVER

A unique formulation specifically designed to remove dead insects from all areas of your bike. Simply spot clean your bike where needed and be left with a smear-free surface even in direct sunlight.

FEATURES & BENEFITS

- Easily and gently removes dead insects
- Safe on all surfaces
- Low hazard, alcohol-free formulation
- No residue & smear-free finish

OC108 Insect remover spray 500ml

GREAT FOR

- Screens
- Fairings

BIKE WASH

All purpose cleaner specially formulated to quickly remove dirt and grime, leaving a bright and clean finish to your bike.

FEATURES & BENEFITS

- High performance biodegradable formulation
- Leaves a bright and clean finish
- Foaming trigger enables easy and gentle removal of dirt and grime
- Bottle can be fitted directly onto most popular pressure washers
- Bike Wash Snow Foams when used with a pressure washer lance

GREAT FOR

- Paintwork
- Wheels
- Everywhere!

OC100 Bike wash 1L

OC101FB Bike wash 5L

BIKE WASH CONCENTRATE

Now available in a concentrated solution. Just dilute with water to make the correct strength of Mint bike wash, minimising plastic waste and reducing cost.

FEATURES & BENEFITS

- 1L of bike wash concentrate makes 4L of bike wash
- 5L of bike wash concentrate makes 20L of bike wash

GREAT FOR

- Paintwork
- Wheels
- Everywhere!

OC102 Bike wash 1L concentrate

OC104 Bike wash 5L concentrate

BIKE WASH REFILL STATION

20L container with dispensing tap offering in-store refills of Mint bike wash minimising plastic waste and reducing cost. Use 1 x 5L bike wash concentrate and 15L of water to make the correct strength of Mint bike wash.

INCLUDES

- 1 x 20L dispensing container
- 2 x 5L Bike wash concentrate

OC107 Bike wash refill station

SILICONE DETAILER

An innovative blend of oils which hides minor blemishes on surfaces, reducing the appearance of small cracks and scratches.

FEATURES & BENEFITS

- Specially formulated to give your bike a great shine
- Fast drying with a residual free surface
- Achieves super smooth surfaces
- Additional protection on exposed areas
- Easy application
- Helps reduce cleaning
- Stays looking cleaner for longer

OC203 Silicone detailer 500ml

GREAT FOR

- Paintwork
- Carbon Fibre
- Fairings

GENERAL PROTECTANT

A highly effective, general purpose protectant with strong film forming properties, which create a protective coating to prevent moisture ingress and damage on all types of components.

FEATURES & BENEFITS

- Hydrophobic properties reduce moisture retention
- Cleaning and care is made easier especially during the autumn/winter season
- Repels moisture
- Enhances protection against dirt and grime
- Light wax coating ensures longevity of protection

OC204 General protectant 500ml

GREAT FOR

- Springs
- Fork stanchions
- Rust prone areas

FAST FINISH POLISH

A unique blend of natural waxes which provides a shine to your motorcycle finish. It's quick and easy to apply and is specifically formulated to leave a protective water-resistant barrier on your bodywork.

FEATURES & BENEFITS

- Specially formulated to give your bike a great shine
- Additional protection on exposed areas
- Quick and easy application
- Leaves a protective water-resistant barrier
- Stays looking cleaner for longer

OC208 Fast finish polish 500ml

GREAT FOR

- Paintwork
- Carbon Fibre
- Fairings

BIKE POLISH

A dust free polish that is easy in application and polishing off, giving your bike a deep, long lasting wax protection.

FEATURES & BENEFITS

- Carnauba Wax gives a long-lasting deep gloss which repels water
- Streak free finish
- Dust free formulation
- Leaves your bike looking cleaner for longer
- Safe on all types of paintwork
- Biodegradable

OC121 Bike polish 500ml

GREAT FOR

- Paintwork
- Carbon fibre
- Fairings

DRY WEATHER LUBE

Specifically formulated with selected oils, PTFE and fewer solvents to repel the dirt thrown up when riding.

FEATURES & BENEFITS

- Long lasting protection and lubrication
- Helps maintain performance of chains and drive chains
- Ideal for dry and dusty conditions
- Special formulation with PTFE helps prevent dirt and grime adherence

OC205 Dry weather lube 500ml

GREAT FOR

- Chains
- Sprockets
- O,X,Z rings

WET WEATHER LUBE

Specially formulated with a high anti-corrosion content and a film forming wax with a resin binder to improve durability and performance in very wet conditions. PTFE content fills the gaps between moving parts to reduce dirt ingress.

FEATURES & BENEFITS

- Developed to combat the most inclement weather conditions
- Long lasting protection with PTFE
- Special formulation with anti-fling properties
- Maintains performance of chains

OC206 Wet weather lube 500ml

GREAT FOR

- Chains
- Sprockets
- O,X,Z rings

ALL WEATHER LUBE

Specially formulated viscous lubricant with corrosion inhibiting additives to create a tough film, giving additional protection in all four seasons of weather.

FEATURES & BENEFITS

- Ideal for extended journeys
- Long lasting protection with PTFE
- Special formulation with anti-fling properties
- Reduced contamination of surrounding parts
- Maintains performance of chains

OC207 All weather lube 500ml

GREAT FOR

- Chains
- Sprockets
- O,X,Z rings

CHAIN WAX

Mint Chain Wax is specially formulated to protect your chain whilst its viscous, anti-fling properties keep it working in all kinds of weather, ride after ride. Suitable to use on all kinds of chains, drivetrains and including O, X and Z rings, guaranteeing long lasting protection for your chain.

FEATURES & BENEFITS

- Long lasting wax formula
- Special formulation with anti-fling properties
- Reduced contamination of surrounding parts
- Maintains performance of chains ride after ride

OC212 Chain wax 500ml

GREAT FOR

- Chains
- Drivetrains
- O,X,Z rings

CORROSION CONTROL

Mint Anti Corrosion is designed to protect your bike from existing and new corrosion. This product is easy to apply, and once used it forms a thin film that creates a protective barrier against corrosion.

FEATURES & BENEFITS

- Ideal for protecting your bike during cold storage
- Forms a thin protective layer that prevents corrosion
- For best results, reapply every 6 months
- Teflon & water free

OC211 Corrosion control 500ml

OC223 Corrosion control 750ml

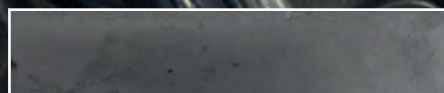

GREAT FOR

- Engine block
- Frames
- Headers

SUPERIOR FORMULA

CORROSION CONTROL

MARKET LEADING

UNTREATED METAL

HELMET CLEANER

A unique formulation specifically designed to clean helmets and visors without streaking.

FEATURES & BENEFITS

- Removes road dirt, dead insects and greasy residue
- Unique formulation
- Easy application
- Quick drying
- Low hazard, alcohol-free formulation, safe on all surfaces

OC302 Helmet cleaner 250ml

OC306 Helmet cleaner 50ml

GREAT FOR

- Helmet visors
- Helmet shells

ANTI FOG SPRAY

A specially developed, easy to use anti-fog fluid for visors and goggle lenses. This formulation provides a natural streak free lustre in seconds with no sticky residue.

FEATURES & BENEFITS

- Effective and suitable for most surfaces
- Leaves no residue or streaks
- Cleans and polishes in one application
- Non-sticky

OC301 Anti fog spray 250ml

OC304 Anti fog spray 50ml

GREAT FOR

- Helmet visors

HELMET SANITISER

The formulation is specifically designed to clean and safely sanitise the interior fabric of your helmet so that you have a fresher experience every time to put it on.

FEATURES & BENEFITS

- Easy application

OC300 Helmet sanitiser 200ml

OC305 Helmet sanitiser 100ml

GREAT FOR

- Helmet linings
- Gloves
- Shoes / boots

VISOR MATE

The Mint Visor Mate bottle provides everything you need to keep your visor clean in one compact package.

FEATURES & BENEFITS

- Simple to use, pump action bottle
- Can be used on both sides of the visor
- Ribbed construction for easier use while travelling with gloves
- Pocket-sized for convenience
- Cleaning fluid included
- Integrated sponge and visor wipe

OC307 Visor mate 50ml

GREAT FOR

- Helmet visors

WATER PROOFER

Designed to waterproof and protect virtually any fabric, especially polyester, cotton and nylon. Containing advanced reactive silicone nano-technology it offers superior durability and wash resistance even after repeated cleaning. It extends product life by preventing moisture, stains and dirt build up.

FEATURES & BENEFITS

- 12m2 material coverage per each bottle
- Rain droplets simply bead-up and run off the fabric surface
- Forms an invisible barrier that protects against water, dirt and oil
- Can be used on leather, fabric, outdoor covers, tents, awnings etc.
- Non-hazardous formulation
- PFAS FREE

OC178 Water Proofer 500ml

GREAT FOR

- Clothing
- Outdoor covers
- Footwear

HELMET CARE KIT

Travel-sized cleaning and anti-fog treatments in a handy EVA foam pouch for convenient motorcycle storage.

INCLUDES

- OC304 Anti Fog Spray 50ml
- OC305 Helmet Sanitiser 100ml
- OC306 Helmet Cleaner 50ml
- OF608C Microfibre Cloth 30x30cm

OC303 Helmet care kit

CLEAN AND LUBE KIT

The Mint Clean and Lube Kit for motorcycle chains will keep your pride and joy in MINT condition.

INCLUDES

- OC200 Chain Cleaner 500ml
- OC207 All Weather Lube 500ml
- OX731 Chain Brush

OC500 Motorcycle chain and lube kit

DETAILING KIT

The Mint Detailing Kit contains all you need to keep motorcycle bodywork and components in MINT condition.

INCLUDES

- OC203 Mint Silicone Detailer 500ml
- OC204 General Protectant 500ml
- OX723 Detailing Brushes x5
- OX280 Ultra Softy Towels x2

OC503 Motorcycle detailing kit

NEW

HELMET CARE KIT XL

Provides you with everything you need to maintain the cleanliness and functionality of your helmet and visor.

INCLUDES

- OC300 Helmet sanitiser 200ml
- OC301 Anti-fog spray 250ml
- OC302 Helmet cleaner 250ml
- OF608C Microfibre cloth 30x30cm

OC504 Helmet care kit XL

CLEANING KIT XL

The Mint Clean and Lube Kit for motorcycle chains will keep your pride and joy in MINT condition.

INCLUDES

- OC200 Chain Cleaner 500ml
- OC207 All Weather Lube 500ml
- OX731 Chain Brush

OC500 Motorcycle chain and lube kit

SNOW FOAM BOTTLE

Designed to make cleaning easier. Pre clean, snow foam and wash your bike all using this one bottle. Simply fill, pressurise & spray.

- Incrementally marked, 2-litre bottle for accurate dilutions
- Interchangeable spray & foam nozzles
- Pressure release valve to remove pressure
- Durable design to withstand repeated use
- Suitable for all spray-on cleaners and snow foams
- Lockable trigger for ease of use

OX236 Snow foam bottle

AEROSOL TRIGGER

Designed to provide a comfortable and secure grip, this handle reduces hand fatigue and improves precision during application.

- Trigger allows for precise application and minimal over spray
- Ergonomically designed handle for ease of use and maximum comfort
- Simple and quick to attach
- No more finger strain or product covered hands
- Universal fit for use with all standard aerosols

OX430 Aerosol trigger

NEW

WORKSHOP APRON

A must have for any bike lover. Not only can you keep your tools close at hand in its multiple pockets, it also protects your clothing from any unwanted spills or splashes.

- Universal fit
- Adjustable waistband and neck strap

-------	-------

A close-up, low-key photograph of a motorcycle's front end. The main focus is a large, round, black headlight with a clear lens, which is illuminated from within, casting a bright white glow. To the left of the headlight, a small, rectangular, orange LED turn signal is lit up. Below the headlight, a brown leather strap with a metal buckle is visible. The background is dark and out of focus, showing various mechanical parts of the motorcycle. The overall mood is dramatic and focused on the lighting elements.

LIGHTING

INDICATORS

SEQUENTIAL INDICATORS

The ultimate trick upgrade. The indicator dynamically sweeps across from the inside to the outside of the indicator strip, when activated. A universal fit makes these a must-have for any bike.

INDICATOR LEADS

Each bike manufacturer uses different connectors for their indicators. This means that when fitting universal aftermarket indicators you need to cut the original connectors off and replace them with bullet fittings.

Not any more! Simply connect the IndyLeads between the original connector and the universal indicator. Simple. 2 pack for front OR rear.

EL321	9 WATT / 21.5 OHM Ceramic Resistors

A close-up photograph of a motorcycle's handlebar area. The image shows a black side mirror at the top, a black handlebar grip with a textured surface and the 'OXFORD' brand name, and various control switches including a 'MODE' switch and a 'P' (park) button. A blue motorcycle fairing is visible in the bottom right corner. The background is blurred, showing what appears to be a workshop or garage setting.

HANDLEBAR ACCESSORIES

HOTGRIPS® PRO 2.0

ADVANCED HEATED GRIPS
WITH INTEGRATED CONTROLLER

INTELLIGENT HEAT
SETTING MEMORY

BATTERY SAVING MODES

RESPONSIVE HEAT SETTINGS

INTEGRATED CONTROLLER

The built-in controller allows the rider to effortlessly control the temperature of their HotGrips® without removing their hand from the grip.

THERMISTOR CONTROLLED HEAT SETTINGS

The temperature of each individual grip is monitored and maintained by a thermistor

HOTGRIPS PRO: 3.5 YEARS IN DEVELOPMENT, 35 YEARS IN THE MAKING

The latest evolution of Oxford's vast HOTGRIPS® range is a fully integrated heated grip, which comes in 3 brand new grip patterns.

On a very practical level, these are our first fully silicone grips; this incredible material increases their lifespan by up to 200% without compromising comfort or performance, as well as reducing cable strain and increasing grip levels.

Moreover, there is also no separate switchgear to find space for and install, because each grip houses its own internal temperature control unit, operated by a power/temperature button with an LED light on the clutch-side grip.

To select a heat setting, simply press the button repeatedly until the LED displays the colour which corresponds to your choice. The LED will automatically dim to reduce distraction when riding at night.

On a more technical level, the intelligent controller will independently measure and control the temperature of each grip using inbuilt thermistors to maintain the desired temperature setting.

Whatever temperature is chosen, the controller will supply maximum power until each grip has reached this temperature. Once reached, the controller will only top up as and when required to maintain this set temperature, making the grips easier to use and more energy efficient.

Here's an everyday example of how independently temperature-controlled grips will make your riding more comfortable...

If you need to remove one hand while riding for any reason, the automatic temperature control will counteract the effect of windchill by sending power immediately to the affected grip. When you return your hand to the grip, rather than needing to warm back up, it will be just as warm as it was before.

HOTGRIPS PRO also have 2 Battery Saving Modes: a lead-acid mode and a lithium mode. Both read and monitor the motorcycle's battery and will shut off automatically at the set voltage levels to protect the battery from draining.

INTELLIGENT HEAT SETTING MEMORY

This innovative function stores the previous heat setting and defaults to this at power-up, saving time when in regular use.

BATTERY SAVING MODES

If you forget to turn the switch off, the HotGrips™ will do it for you, protecting against flat batteries. HotGrips® Pro also offers an additional battery saving mode for lithium batteries, now common on high-performance motorcycles (see instruction manual)

RESPONSIVE HEAT SETTINGS

The thermistor reacts to temperature changes in the environment and adjusts the heat output accordingly, maintaining the selected temperature setting.

The multi-coloured LED clearly displays the thermistor controlled temperature setting before dimming - to reduce distraction whilst riding

• 55° • 50° • 45° • 40° • 35°

TRIM TO SIZE

The grips can be trimmed if required, with open ends allowing bar end weights to be fitted.

WATERPROOF DESIGN

Fully waterproof connectors and a fully integrated controller meet IP65 waterproof standards, ready for any riding environment.

INTEGRATED CABLE STRAIN RELIEF

Allows for a more compact cable exit. This reduces the size of the grip without reducing the reliability and durability of the cable exit.

SILICONE-FORMED

For improved durability and heat stability

HEX

Creating a comfort layer, reducing vibration through the grip, whilst increasing durability.

KNURLING

Creates the largest surface area for maximum grip and control.

GRIPPER BARS

Designed for tough terrain where grip is more important for control and stability.

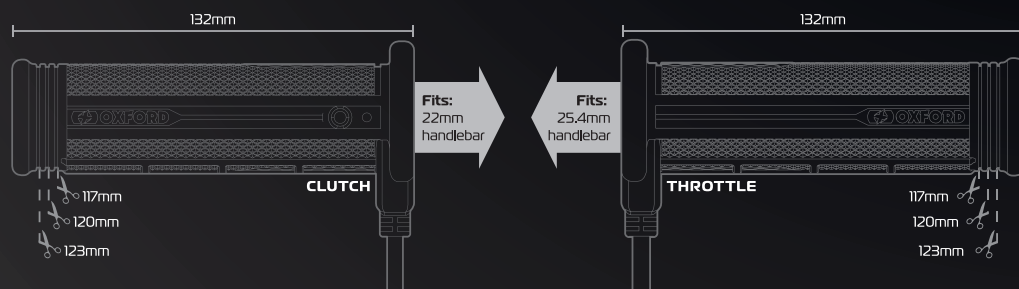

HOTGRIPS® PRO 2.0 ADVENTURE

Combines a knurled base with our hex pattern in the crook of the thumb and additional gripper bars along the length of the grip to give maximum comfort and control on rough terrain. With integrated temperature control, these hardwearing silicone grips will keep your hands warm and comfortable so you can focus on the road ahead.

ADVANCED INTEGRATED HOTGRIPS®

Advanced Integrated HotGrips® have a redesigned, slimline controller now conveniently positioned next to the HotGrip on your handlebar, allowing you to adjust heat levels effortlessly without removing your hand from the grip.

This innovative design ensures a sleek, integrated look by blending seamlessly with your motorcycle's switch gear, eliminating the need for a floating controller on the handlebars.

Bespoke, ergonomically engineered grip patterns optimise your riding performance and the trimmable, open-ended grips enable a variety of bar end accessories to be fitted.

HotGrips® keep your hands warm so you can ride in comfort.

KEY FEATURES

- Slimline intelligent controller with 5 heat settings to give a perfect operating temperature
- LED lights automatically dim to reduce distraction when riding at night
- Intelligent heat setting memory - stores previous heat setting and defaults to this at power-up, saving time when in regular use. Note: Function is available when heat controller is connected to ignition
- Weatherproof power connectors - IP67 rated protect your HotGrips® from the elements
- Battery saving mode - protects against flat batteries, so if you forget to turn the switch off it will do it for you! HotGrips® Advanced Integrated offers an additional battery saving mode for lithium batteries, now common on high-performance motorcycles
- Fits 22mm handlebars

ADVANCED HOTGRIPS®

Oxford invented Hotgrips® in the 1980s and has been refining the concept ever since. So, although the product is sold all over the world, the UK really is the product's spiritual home.

So, when Oxford's engineers targeted potential improvements to the current product design, they looked to UK weather and UK riders for inspiration. UK weather because here we truly understand cold, wet and constantly varying conditions. UK riders, because this hardy bunch really does ride all year round.

THERMISTOR

CONTROLLED HEAT SETTINGS

UNIQUE THERMISTOR TECHNOLOGY AUTO-REGULATES TEMPERATURE

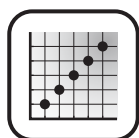

Built into the HotGrip® and thumb-warmer is a temperature measuring thermistor that provides feedback to the heat controller.

Dual channel heat controller gives independent control for the grips and thumb-warmer. The grips have ergonomically engineered surface structures to optimize riding performance. Thicker rubber in areas of maximum wear; rhombus tread patterns for high levels of grip and feel; diamond tread pattern where maximum grip is required and a waffled area for finger-grip control. The grip length is 130mm but can be trimmed to 120mm and has open ends so that bar end weights can be fitted. Glue-less clamp fitting makes them easy to fit.

PREMIUM LEVER GUARDS

Universal lever guards for brake and clutch

These lever guards protect your handlebar control levers from being engaged accidentally by very close contact with immovable objects (like other bikes on a track day). But they also supply a bit of racer style to your bike too. This concept can equally be applied to road riding, protecting your lever(s) from wing mirror strikes while filtering.

FEATURES

- Universal fitting
- Unique Oxford design
- Lightweight CNC alloy construction
- 12-18mm diameter expansion bushes
- Fits 22mm diameter handlebars
- Packing includes both throttle and clutch lever guards

CODE	DESCRIPTION
------	-------------

OX700	Lever Guards
-------	--------------

PREMIUM HAND GUARDS

Universal hand guards for brake and clutch

Beautifully created handguards to give protection to the rider's hands from stones, weather and general road debris. Adds the finishing touch to a bike that has no guards fitted.

FEATURES

- Universal fitting
- Unique Oxford design
- Lightweight CNC alloy construction
- 12-18mm diameter expansion bushes
- Fits 22mm diameter handlebars
- Packing includes both throttle and clutch lever guards

Tip: You can convert these hand guards to lever guards by adding the hand guards (OX701) which are available separately.

CLIQR

MOUNT YOUR DEVICE, ANYWHERE

HANDLEBAR ACCESSORIES

OXFORD'S CLIQR IS THE ULTIMATE WAY TO SECURELY MOUNT YOUR DEVICE

CLIQR uses a dual-locking, fail-safe mechanism to mount almost any device in the most convenient position for you. Simply stick the CLIQR Device Adaptor onto the back of your device and CLIQR it into the mount of your choice, in the orientation that suits you.

SHARED BASE MOUNT

The shared base mount is the core of the CLIQR range, providing a secure and quick mounting system, allowing the phone to be in either landscape or portrait orientation. The Dual locking, fail-safe mechanism keeps the phone secure over rough terrain and the simplicity of the mounting system means it can be operated easily with just one hand.

UNIVERSAL ADAPTOR WITH VHB 3M™ TAPE

Designed to be attached to the user's phone or phone case, removing the need for a specific bulky phone case with an integrated mounting system.

MOUNTING OPTION

The CLIQR range provides the best and most versatile mount solutions for any activity.

SIMPLE TO LOCK AND REMOVE WITH ONE HAND

VERTICAL OR HORIZONTAL MOUNTING OPTIONS

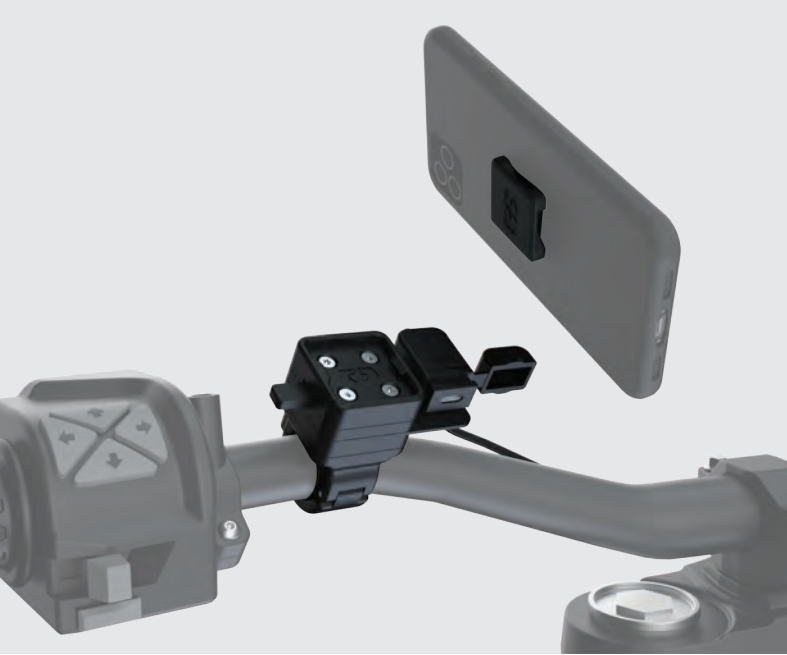

THE CLIQR HAS BEEN VIGOROUSLY TESTED TO ENSURE YOUR DEVICE IS SECURE, WHEREVER YOU TAKE IT. DON'T JUST TAKE OUR WORD FOR IT...

CLIQR is extensively tested both in-house and via external bodies to ensure you that your device is safe whilst mounted.

To see the results of our testing, check out www.oxfordcliqr.com to see the results

HANDLEBAR ACCESSORIES

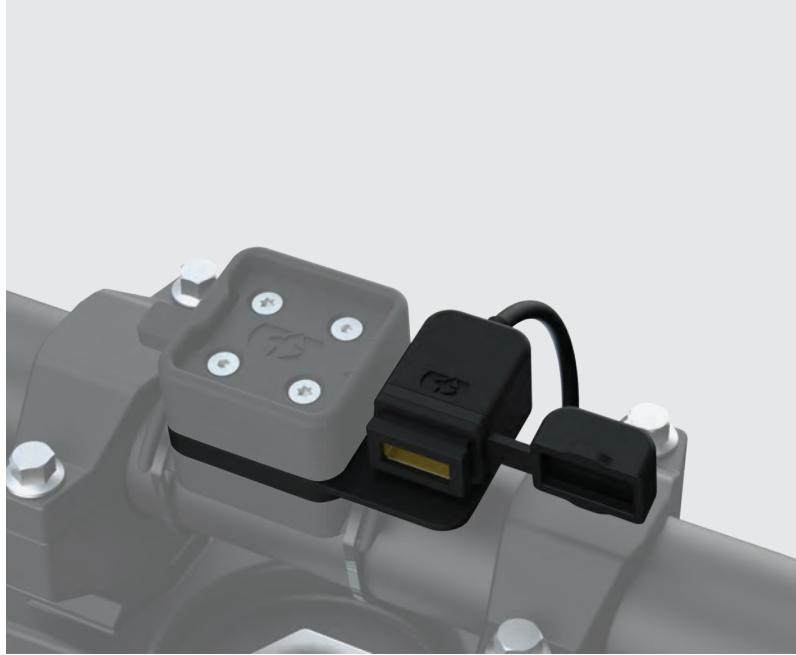

USB TYPE C HANDLEBAR MOUNT

The CLIQR USB Type C Handlebar Mount allows you to mount your device beside your controls and charge whilst on the move.

INCLUDES

RIDER GRIPS

Secure passenger grab handles

FEATURES

- Rubber grips are positioned thoughtfully on the rider's hips with the comfort of both rider and pillion in mind and have a generous aperture for large hands and padded gloves.
- Two belts are used to secure the grips in place. The first is a hook & loop fastened anti-dive belt, which offers stability under braking. The second is held in place by a buckle, but all the acceleration load is taken up by the immensely strong main strap.
- A sculpted, breathable, mesh backed pad at the front spreads any load taken up by the strap and its rubberised surface is friendly to the tank.
- All load bearing points are flag-stitched for maximum strength and the thread used is marine-grade to prevent it rotting if left damp and in case it comes into contact with salt water.
- Every component has been independently strength tested up to 180kg, which provides a comfortable margin for the 130kg rating deemed necessary for the product at the furthest possible extremes of usage.
- 3M™ reflective stitching for improved visibility at night.
- Comprehensive instructions in multiple languages complete the safety package

◀ SELF-TENSIONING ▶

ATLAS STRAPS

Adjustable self-tensioning straps

Stronger and much safer than a bungee, Oxford's Atlas Straps are adjustable self-tensioning straps. Their extra strong, flat webbed design is easy to adjust to the desired length and the quick release mechanisms makes them simple to detach. The strap has an elasticated section which keeps the strap under constant tension providing a safer and more secure hold compared to regular solid straps.

Atlas straps are available in 17 or 26mm widths, 1.2 or 2m lengths and 3 varying connectors

- Extension loops eliminates direct contact between hook and bike

CODE

OX743

RAMP

Lightweight aluminium loading ramp

FEATURES

- Designed for use with bikes up to 340kg
- Wide design is ideal for use by 1 person
- Folding construction for easy storage
- Hook & loop strap keeps ramp safely closed whilst carrying
- Can hook onto a 13mm / 1/2" bar on the tail of pick-up truck
- PVC coated resting forks to avoid scratching vehicle
- Includes webbing strap to hold ramp to vehicle
- Dimensions: 2.1m / 7ft long x 27.5cm / 11" wide

Save your bike, save your thigh. Buy a proper ramp, like this Oxford one. It folds, taking up less space in your van/garage, it has a nice curve so you don't drag your undercarriage, and it has grippy 'fingers' at the end to prevent slippage.

SuperBike

CODE

LUGGAGE

IN THE BEGINNING WAS THE TOP BOX

Oxford's very first product back in 1973 was a top box... tough, secure, watertight, no-nonsense. Today, our luggage range is huge, varied and endlessly versatile, but remains true to the simple charms of that first top box. With shapes and styles to suit all types of motorcycle, we excel in producing well thought-out, reliable kit and really do have a solution for carrying all of your kit - on and off the bike.

ALWAYS DEVELOPING

Motorcycle luggage exists in a harsh environment, attacked at high speeds by all weather conditions. It must be made from durable, weatherproof material and have lots of useful features. It needs to be adjustable, so that it can be fitted to a wide variety of machines. It also needs to offer decent carrying capacity and to look good on the bike.

Oxford's luggage is always developing; every year we hunt down the latest technology, innovate new solutions and build more functionality into our designs. From humble top box beginnings, Oxford has become the world's leading soft motorcycle luggage brand. Explore our range, then explore with us.

ATLAS

**THE BEST LUGGAGE ALLOWS YOU TO EXPLORE
WHEREVER, WHENEVER.**

Our range-topping ATLAS modular luggage range can take you to the shops or around the globe.

Your kit will stay dry and be easy to access thanks its
WATERPROOF CONSTRUCTION.

If you need to expand or contract your carrying capacity, you can quickly add or subtract a bag using its
MODULAR LUGGAGE SYSTEM.

When you want to grab everything quickly off the bike and make a dash for it, you can rely on its
UNIVERSAL FAST FIT.

And, because it's built to last, we offer the peace of mind that comes with a
LIFETIME GUARANTEE.

advanced
RIDER SERIES

MODULAR LUGGAGE SYSTEM

Use 1, 2, 3, 4 or even 5 bags together to create the capacity you need.

- Main compartments are always accessible even whilst mounted to your bike
- Four adjustable compression straps per bag to ensure load stability
- Up to 70L volume/15kg combined maximum weight capacity

WATERPROOF CONSTRUCTION

Internal waterproof compartment can be fully removed, or even doubled up to keep contents separated.

- Additional waterproof inserts can be added (available separately)
- Four turns of the roll-top construction create an airtight seal
- Water resistant outer pockets feature YKK® AQUAGUARD® zippers
- Wipe clean Hypalon® fabric in main wheel spray zones*

Hypalon is a registered trademark of E.I. duPont de Nemours and company or its affiliates

LIFETIME GUARANTEE

We draw on a lifetime of experience in motorcycle luggage. Indeed, our very first product back in 1973 was a top box... tough, secure, watertight, no-nonsense.

Today our luggage range is huge, varied and endlessly versatile, but remains true to the simple charms of that first top box. Built to last.

We are so confident of the quality of ATLAS modular luggage that we guarantee it against faulty materials or manufacture for life!

The guarantee is only offered to the original purchaser when bought from an authorised Oxford stockist, so keep your purchase receipt.

*Full details can be found on our website.

UNIVERSAL FAST FIT

Because you don't want to waste good riding time fitting your luggage every time you venture out, we have devised the most user-friendly **UNIVERSAL FAST FIT** attachment system.

You will probably want to spend a little time working out the perfect set-up for your bike first time around, but after that you will be able to attach and detach however many bags you use in a matter of seconds.

Even better, everything you need (and more) is provided with the bags as standard.

OXFORD

NOMAD

MODULAR LIGHTWEIGHT LUGGAGE

Oxford NOMAD is a range of modular lightweight luggage, designed in a way that allows you to build a luggage system personalised to you.

Starting with a harness, secure this to your bike and then choose from a range of fully adjustable bags, packs and pouches, and attach these in whatever way suits the needs of your ride.

MODULAR

MOLLE (Modular Lightweight Load-carrying Equipment) is a load-bearing specification used in the Oxford NOMAD range.

This allows an unlimited number of attachments and accessories to be added and removed to the luggage system, in any combination, and secured in a way that is convenient to the user.

SECURE

The Oxford NOMAD range of accessories are securely attached to each other by a PALS (Pouch Ladder Attachment System).

This is a user-friendly webbing grid made of 600D polyester, that accessory straps are woven through, creating a tight and secure fit.

ADAPTABLE

Every product in the Oxford NOMAD range is fully adaptable. Accessories are designed to attach to both a harness and other accessories, allowing you to customise your luggage system.

LIGHTWEIGHT

Because space and weight are so valuable while riding, the Oxford NOMAD range has been designed to be as light as possible, allowing the user to carry exactly what they require on their ride, commute or adventure.

NOMAD ADVENTURE HARNESS

Molle-compatible, universal saddle mounted base

FEATURES

OXFORD ROAMER

SUMMARY

The ROAMER luggage collection offers a complete top box packing solution. Choose from two generously sized, tough aluminium, lockable TOP BOXES. Add extra capacity with waterproof ROLL BAGS. Organise your kit inside with padded internal GRAB BAGS. Then hit the road and ROAM...

FIXTURES & FITTINGS

The classically styled, high-grade aluminium Roamer Top Box is available in 45l and 65l storage capacities. With sturdy grab rails and armoured corners this luggage is built for life on the road. Capable of holding one (45l) or two helmets (65l) within its lined interior, the Roamer benefits from a large, removable zipped mesh pocket within the lid to stow smaller items. Stretchy padded retention straps hold contents securely in place and an extensive range of Roamer Grab Bags and Roll Bags give plenty of additional storage options.

Attachment and quick and easy removal of the Roamer Top Box is achieved via a single anchor bolt that screws through the box into the universal-fit baseplate. Raised pegs on the rear of the Top Box slot into cut outs on the base plate to hold the Top Box securely in place. A nyloc nut is provided for those who wish to make the Top Box a more permanent fixture.

AQUA PRO

PROFESSIONAL GRADE WATERPROOF LUGGAGE

Building on the success of Oxford's extensive AQUA range, AQUA PRO luggage delivers superior strength, durability and functionality in every aspect of its design.

Designed without compromise for the most demanding adventure travel.

ULTIMATELY WATERPROOF

Tackle the rain with confidence: the AQUA PRO is engineered to keep every single item 100% dry, even when adventure throws down the worst. The heavy-duty 1000D PVC tarpaulin base resists abrasions and wet surfaces, while the pliable 500D PVC roll-top closure forms a watertight seal when rolled to the clearly marked "roll-line" and secured.

DURABLE 1000D PVC

Built for tough conditions, AQUA PRO uses premium PVC for lasting durability. Its rugged 1000D PVC tarpaulin base resists abrasions and tears, while the 500D PVC roll-top offers a strong, flexible, and watertight seal.

FAST, SECURE, MODULAR ATTACHMENT

AQUA PRO features a secure, versatile attachment system with compression straps, quick-release buckles, and reinforced mounting points to keep your gear stable on any ride. Integrated D-rings add flexible mounting options.

AQUA

WEATHERPROOF BAGS

Oxford's Aqua bags are one of the easiest ways to get your gear from A to B on a motorcycle, safe and dry. They are made from a tough PVC tarpaulin, which is welded to form waterproof seams. When straps are added to perform essential functions (such as securing the bag onto a motorcycle), Oxford uses innovative construction techniques to further reinforce the bag whilst ensuring complete waterproofing.

The latest generation of Oxford's acclaimed Aqua luggage now offers a choice of five useful tail bag sizes - from commuter 8L through to 'epic voyage' 70-litre versions - plus a range of backpacks and tank bags

"The middle sized of Oxford's Aqua packs is great value and arguably the most practical."
AQUA-T 50

IMPORTANT INFO:

- Because we ride bikes we understand that motorcycle luggage needs to be adjustable, so that it can be fitted to a wide variety of machines and must be made from durable, weatherproof material. It also needs to offer decent carrying capacity and to look good. We are never complacent and every year we build more features into our design. All this explains why we are today a successful global motorcycle luggage brand.
- OXFORD LIFETIME LUGGAGE is designed by motorcyclists in the UK. We are so confident of its quality and durability that we guarantee it against faulty manufacture or materials for life! The Lifetime Guarantee does not, however, extend to rain covers, buckles and zip tags, which are covered under our usual warranty. Nor does it insure against reasonable wear and tear or failure to properly care for/maintain the product.
- Read the user recommendations carefully before use to enjoy this luggage safely and to its full capacity.
- If you need advice on which bags are best suited to your riding needs, please don't hesitate to call our customer services team on **01993 862 300**.

Full details and model application list available at www.oxfordproducts.com/luggage

R-SERIES

LUGGAGE

Oxford's Lifetime Luggage is the jewel in its crown, benefiting from 20+ years of passionate development since its launch in 1997.

Most bags look roughly the same from the outside, differentiated only by the styling, number of pockets and a few handy features.

The difference between a good bag and a GREAT bag is what you don't see at first glance; the material composition, construction methods, waterproofing systems, safety mechanisms, tried and tested componentry and built-in real-world usability.

You don't need to know what Oxford's test laboratory has specified, amongst other things: flag-stitched stress points; taped waterproof liners; innovative and over-engineered security straps; tough outer materials to battle the elements; soft touch-point materials to protect your bike; bright interiors for better content visibility; self-healing zippers; comprehensive user guidelines.

You'll carry on not needing to know for years and years... which is why Oxford Lifetime Luggage comes with an unparalleled Lifetime Guarantee.
